ANNEXURE XII Name/Address Change	40

Admissions Cell

College is affiliated with RTU Kota, and is approved by AICTE. The college has created an admissions cell to oversee that the admissions process is in confirmation with the AICTE norms (Refer to: <http://www.aicte-india.org/downloads/25.PDF>). Moreover, the cell shall act as an interface between the students and the Institute, helping the students to clarify their doubts, if any, regarding the course or the institute, and to take right decision about their career. In nutshell, the Admission Cell will be responsible to manage and monitor all the admission related activities in the college, and the Academic Council shall be responsible to chair and oversee the entire admissions process.

I. Objectives of the Cell

The objectives of the Admissions Cell are as follows:

1. To identify & contact prospective candidates who would be more apt for the B. Tech programs.
2. To facilitate the provision of right information, in a friendly manner, to the enquiring students and/or their parents/guardians.
3. To provide ample support to the students in form of guidance & counseling, and through provision of scholarships as per the eligibility criterion, and availability of seats.
4. To ensure provision of transparent admission process & the relevant courses to the aspiring students.
5. To ensure that the entire admission process is a pleasant experience for the students and their parents/guardians.

II. Courses Offered:

College offer s four years full-time B.Tech programme in five core branches of Engineering

- a. Civil Engineering
- b. Computer Science & Engineering
- c. Electrical Engineering
- d. Electronics & Communication Engineering
